DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a vehicular lamp used in a vehicle having a comparator operable to compare the potential at said another end of said capacitor to a reference voltage given thereto and to control a timing at which said light-source controlling transistor is turned on or off and a timing at which said capacitor controlling transistor is turned on or off in synchronization based on a result of comparison (claim 1). The remaining claims 2-5 are allowed by virtue of their dependencies on the independent claim. Hence, the examiner has allowed claims 1 through 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
